PRODUCT INFO

OVERVIEW

The Trophy is equipped to tackle huge distance in outstanding comfort, solo or two-up, with an obsessive attention to detail that makes it an even greater pleasure to own and ride.

A technical tour de force with its full ride-by-wire throttle and the most comprehensive package of electronic systems and aids we've ever produced. Yet it's also beautifully stylish and thanks to the 1215cc, three-cylinder engine which powers it, it's full of character and endowed with huge levels of torque across its rev range.

The Trophy is outstandingly comfortable even by touring bike standards and thanks to some very clever engineering, it's also exceptionally agile and sharp.

PERFORMANCE

MAX POWER EC	134 8900
MAX TORQUE EC	120 6450
