Tiger Sport

£9,699.00 †

PRODUCT INFO

OVERVIEW

Sometimes you need a bike that can do everything – a perfect all-rounder. One day you need two-up touring, the next could be commuting. Sometimes you just want a back-road sports bike. The new Tiger Sport 1050 meets many demanding roles.

With its sharper handling and punchier performance, we haven't just made slight tweaks here. The bike is all-new from the rear of the fuel tank back, and just about everything you can see has changed over the previous Tiger 1050.

As a result, the Tiger Sport has been improved on all fronts with better performance, better handling, better ergonomics for passenger and rider, an increased load-carrying ability, more practicality, leaner looks and exceptional detailing and build quality.

So you get a bike that's not only great for sports riding but it's also a better tourer and everyday workhorse. The Tiger Sport is a totally different animal.

ENGINE

Performance

The Tiger Sport uses the same characterful three-cylinder, 1050cc engine as the previous Tiger 1050, but peak power has increased by 10PS (123bhp, 92kW) to 125PS, and peak torque is up 6Nm to 104Nm (77lb.ft, 10.6kgm), and the engine is stronger across its rev range.

Air Intake

Changes to the airbox mean improved breathing, a major contributor to the Tiger Sports gains in power and torque. The result is an even better induction sound.

Transmission

The Tiger Sport takes a completely revised gearbox first introduced on the Speed Triple R. The changes provide a smoother, lighter, and more precise gear selection. We even gave the rear sprocket an additional tooth to lower the gearing slightly for punchier acceleration.

Exhaust System

The exhaust system is totally new. We've used all our expertise and the latest technology to give you improved gas flow for better performance and a louder, more involving sound.

ENGINE	
TYPE	Liquid-cooled, 12 valve, DOHC, in-line 3-cylinder
CAPACITY	1050cc
BORE	79mm
STROKE	71.4mm
SYSTEM	Multipoint sequential electronic fuel injection with SAI (except NZ, ZA, AU)
EXHAUST	Stainless Steel 3 into 1, high level brushed stainless steel silencer
FINAL DRIVE	X ring chain
CLUTCH	Wet, multi-plate
GEARBOX	6-speed
OIL CAPACITY	3.5L

CHASSIS

Frame

We've completely redesigned the frame for the Tiger Sport with two purposes in mind.

The first is to lower the seat, improving the ergonomics for shorter riders as well as passenger comfort. The second is to increase strength for a greater maximum payload. This results in more precision, more engaging cornering and a much more "planted" feel to bring more out of both you and the bike. The extra strength has endowed the Tiger Sport with a 220kg payload allowing the fitment of larger panniers.

Rear Subframe

The rear subframe is now both lower and stronger than the Tiger 1050s and gives the bike a leaner, more sporting look, whilst also increasing its payload.

Swingarm

The new, single-sided swingarm is purpose-made for the Tiger Sport. Designed to look sporty but also allows the exhaust system to be tucked in tighter and so you get more luggage space.

Suspension

The fully adjustable suspension has been completely renewed with new springs and re-valved damping for a more controlled ride and to suit the increased payload. But thanks to some very careful tuning we've improved the ride quality and handling too. The front suspension features Showa 43mm upside down forks with adjustable preload, rebound, and compression damping and 140mm of travel. The rear Showa monoshock has 150mm of travel and is adjustable for preload and rebound damping.

Wheels and Tyres

We added a new cast aluminium rear wheel to the Tiger Sport and fitted it with Pirelli Angel GT tyres. This set up is 1.3kg lighter than on the previous Tiger 1050 for improved agility.

Riding Position

We've altered the riding position on the Tiger Sport so that you sit 5mm lower than before and have a slightly more forward leaning stance. We made the seat narrower at the front so the reach to the ground is easier. Your passenger still sits higher than you, though not quite so much, in line with the Tiger Sport's sporting look.

Handlebars

We also made the handlebars slightly lower and closer to you for a more sporting feel and to give you more feedback and control during sports riding.

CHASSIS	
FRAME	Aluminium beam twin-spar
SWINGARM	Single-sided, aluminium alloy with eccentric chain adjuster
FRONT WHEELS	Cast aluminium alloy multi-spoke 17 x 3.5in
REAR WHEELS	Cast aluminium alloy multi-spoke 17 x 5.5in
FRONT TYRES	120/70 ZR 17
REAR TYRES	180/55 ZR 17
FRONT SUSPENSION	Showa 43mm upside down forks with adjustable preload, rebound and compression damping, 140mm travel
REAR SUSPENSION	Showa Monoshock with adjustable preload and rebound damping, 155mm rear wheel travel

PERFORMANCE	
MAX POWER EC	125 9400
MAX TORQUE EC	104 4300

ACCESSORIES	DESCRIPTION	PRICE
	Low Comfort Dual Seat (T2306869) Alternative Comfort Dual seat featuring 3D net comfort insert for enhanced pressure distribution and comfort, and dual premium fabrics and stitch detailing. Lowers seat height by approximately 20mm.	RRP £105.00
	Top Box Back Rest (A9500506) Moulded passenger backrest pads for fitment to the Triumph touring top box for additional passenger comfort. Features textured finish and Triumph logo branding. Self-adhesive installation – no other Triumph Motorcycle accessories required.	RRP £36.00
	Heated Grip Kit (A9638015) Twin position heated grip kit, features internally wired grip heaters for neat installation and cockpit mounted switch position.- VIN specific product, please consult your authorised Triumph dealer.	RRP £189.00
	Dual Comfort Seat 3DNet (T2306863) Features integral 3D net comfort pad for superb weight distribution. Dual premium fabrics and stitch detailing.	RRP £78.42
	Auxiliary Power socket (A9938185) Auxiliary power socket which allows use of Triumph battery optimiser* or Triumph heated clothing.	RRP £25.50
	Clear Rear Light Assembly (a9700122) Clear Triumph LED rear light unit, direct replacement for the standard OE part.	RRP £97.00

ACCESSORIES	DESCRIPTION	PRICE
	<p>Rubber Tank Pad (T2401656)</p> <p>Self adhesive, durable rubber fuel tank pad to protect the tank from zip scuffs and wear. Features complimentary styling and subtle Triumph logo branding.</p>	<p>RRP £21.46</p>
	<p>Centre Stand Kit (A9778016)</p> <p>Bespoke Triumph fabricated centre stand kit for convenient rear wheel maintenance. Finished in a durable powder coat.</p>	<p>RRP £205.00</p>
	<p>Alarm Kit - Thatcham Approved (A9808118)</p> <p>Thatcham approved (Category 1) bespoke alarm immobiliser system developed in conjunction with Datatool. Designed to be installed whilst ensuring the integrity of the motorcycle wiring harness. Features vibration resistant construction.</p>	<p>RRP £310.00</p>
	<p>Hand Guards (A9708344)</p> <p>High impact ABS hand guards designed to offer protection to hands and controls. In durable textured black finish.</p>	<p>RRP £97.00</p>
	<p>High Touring Screen (T2306711)</p> <p>Injection moulded, polycarbonate high screen for a superb finish and optimum clarity combined with a durable finish. 50mm higher and 22mm wider than the standard part.</p>	<p>RRP £52.28</p>
	<p>Engine Protection Bars (A9758164)</p> <p>Engine protection bars are designed in conjunction with your Triumph motorcycle to yield in the event of a fall or drop, offering protection to engine casings. Durable fabricated steel finished in tough black powder coat.</p>	<p>RRP £205.00</p>
	<p>Paint Protection Kit - Fuel Tank (A9938188)</p> <p>Highly durable, puncture and gravel chip resistant Paint protection film developed to protect paintwork, custom cut specifically to fit the Triumph Tiger Sport fuel tank. When fitted the film appears clear, ensuring the motorcycle looks as intended, an industry first! Used widely in Formula 1 and Moto GP, this paint protection film is designed to be installed easily and with perfect results. The paint protection film allows UV rays to permeate through, meaning the protected paintwork will age at the same rate as the rest of the Triumph motorcycle, avoiding any unsightly colour differences if the film is removed after time.</p>	<p>POA</p>
	<p>Restrictor Bracket Kit 72 KW (A9618169)</p> <p>Mechanical restrictor bracket to reduce power output to 72kw.</p>	<p>RRP £25.50</p>
	<p>Arrow Slip On Silencer (A9600423)</p> <p>Bespoke slip on silencer developed in conjunction with Arrow Special Parts. E Approved. Titanium wrap, carbon fibre end cap and stainless steel internals lead to a considerable 2.6KG weight saving.</p>	<p>RRP £241.50</p>

ACCESSORIES	DESCRIPTION	PRICE
	<p>Machined Alloy Short Levers (A9620030)</p> <p>Offered for Street Triple, Sprint ST, Sprint GT and Tiger, these CNC machined, billet aluminium brake and clutch levers are offered to replace the standard equipment items with a short alternative. Manufactured from aerospace grade aluminium with hard anodised finish, the levers feature contrasting machined and anodised span adjusters and laser etched Triumph branding.</p>	<p>RRP £108.00</p>
	<p>CNC Machined Front Brake Reservoir (T2025066)</p> <p>CNC Machined replacement Brake Reservoir for use on Triumph models fitted with radial brake master cylinder. Features include machined detailing to lid and body, laser etched branding, integral sight glass and an anodised black finish.</p>	<p>RRP £72.00</p>
	<p>CNC Machined Levers - Long (A9620043)</p> <p>CNC machined replacement brake and clutch levers. Anodised finish with laser etched Triumph branding.</p>	<p>RRP £159.00</p>
	<p>2 Box Pannier Lid Kit (A9508081)</p> <p>Factory colour coded pannier lid kit required to complete 2 box pannier kit.</p>	<p>RRP £51.49</p>
	<p>Magnetic Sports Tank Bag (A9510102)</p> <p>Bespoke magnetic sports tank bag with moulded construction to maintain form. Offers 15 litre capacity which can be expanded to 20 litres. Supplied with rain cover, map pocket and shoulder strap.</p>	<p>RRP £47.14</p>
	<p>Pannier Inner Bag (A9508077)</p> <p>High quality inner bag, offered for use with the Tiger Sport Pannier System. Constructed from durable, high quality nylon with preformed base for added water resistance. Features dual carry handles, detachable padded shoulder strap and oversized branded zip pulls for ease of use with gloved hands.</p>	<p>RRP £102.00</p>
	<p>Top Box - Powered (T2351028)</p> <p>Bespoke Triumph top box featuring high security one key locking mechanism, colour coded lid covers (required separately) and fully weatherproof construction. Offers 55 litres carrying capacity, and can accommodate a full face helmet. Features 12v electrical socket for convenient charging of electrical items.</p>	<p>RRP £250.00</p>
	<p>Top Box Inner Bag (A9500505)</p> <p>High quality executive Top box inner bag, offered for use with the Touring Top Box. Constructed from durable, high quality nylon with preformed base for added water resistance. Features dual carry handles, detachable padded shoulder strap, subtle union flag stitch detailing, oversized branded zip pulls for ease of use with gloved hands.</p>	<p>RRP £77.00</p>
	<p>Sliding Carriage Kit (A9508076)</p> <p>Triumph sliding carriage mechanism facilitates mounting of a top box. Features floating mechanism allowing the top box to move independently to ensure the handling characteristics are unaffected, even when fully loaded. The Sliding Carriage Kit also incorporates an automatic electrical connection when the top box is installed.</p>	<p>RRP £148.00</p>
	<p>2 Box Pannier Kit (A9508095)</p> <p>Bespoke Triumph luggage system featuring high security one key locking mechanism, colour coded lid covers and fully weatherproof construction. Dynamic mounting system ensures performance levels are not compromised even when fully loaded. Offers 55.5 litres of luggage carrying capacity (can accommodate one full face helmet in LHS pannier).</p>	<p>RRP £670.00</p>
